

World AIDS Day takes place on the **1st December** each year. It's an opportunity for people worldwide to unite in the fight against HIV, to show support for people living with HIV, and to commemorate those who have died from an AIDS-related illness.

Drinking & Driving: A Threat to Everyone

Choose not to drink and drive and help others do the same.

- Before drinking, designate a non-drinking driver when with a group.
- If out drinking, get a ride home or call a taxi.
- Don't let friends drink and drive.
- Choose not to binge drink themselves and help others not to do it.

- Talk with a doctor or nurse about drinking and driving and request counseling if drinking is causing health, work, or social problems.
- Buckle up every time, no matter how short the trip.
- Encourage passengers in the car to buckle up, including those in the back seat.

Go to the Nearest Mall Near You for a Morning Walk

Although mall walking can be done by almost anyone, it tends to be most popular among people middle-aged and older. This isn't surprising because malls have features that make walking in them particularly appealing to older adults. They are protected from the weather, are well-lit, have flat and even walking surfaces, have convenient restrooms, and have seats and benches where one can rest for a little while in the middle of the walk. Mall walking and mall walking programs can provide safe, convenient, and warm places for you to be active this season.

- ❄️ **Bundle up to stay dry and warm.** Wear appropriate outdoor clothing.
- ❄️ **Manage stress.** Give yourself a break if you feel stressed out, overwhelmed, and out of control. Some of the best ways to manage stress are to find support, connect socially, and get plenty of sleep.

- ❄️ **Monitor children.** Keep potentially dangerous toys, food, drinks, household items, and other objects out of children's reach.
